Conference Objectives

1. The program is aimed at family physicians, however other specialists attending the conference will benefit as events encompass all CanMeds domains.
2. The participants will learn the latest in management of geriatric population, recent ground breaking clinical trial in cardiology, causes and management of erectile dysfunction, cutting edge cardiology research in anticancer drugs and cardiomyopathy, clinical presentation, investigation and management of infectious disease, pathophysiology and management of opiate addiction, work up of uterine bleeding and prostate disorders.
3. Presentations by the Canadian Protective Medical Association will benefit all participants in the area of "Mandatory Reporting; Fitness to Drive and Other Dilemmas".
4. An interactive session by Ann Loewen will encourage physicians to study literature especially the literature on medical topic/issues and written by the physicians.
5. Research presentations by medical student will highlight recent research by members of the MAAP at University of Manitoba.
6. There are dedicated questions and answers sessions after each session will emphasize interaction with participants.
7. All sessions are completely interactive; all speakers will utilize clicker technology and will present 3 to 4 questions to the audience and await their responses during their presentations.
8. Another highlight this year is "Keynote Address" by a leading geriatrics physician in Canada.
